User story UX for the site https://www.kemping.kiev.ua/:

1. As a customer, I want to add a product to my favorites so I can quickly access it;
2. As a client, I want to be able to register on the site in order to spend less time when purchasing a product;
3. As a client, I want to be able to edit data in my personal account to keep it up to date;
4. As a client, I want to have a choice of payment methods for convenience;
5. As a buyer, I want to be able to choose a delivery method for convenience;
6. As a seller, I want to change the price of an item to show a promotional item;
7. As a seller, I want to be able to delete comments to avoid false comments;
8. As a seller, I want to add products in unlimited quantities to maintain assortment;
9. As a seller, I want orders for the purchase of goods to be sent to my email, for convenience;
10. As a seller, I want to see the number of registered users on the site, for convenience.

Requirements:

1. The client can add a product to favorites;
